

MINERAL SURFACES

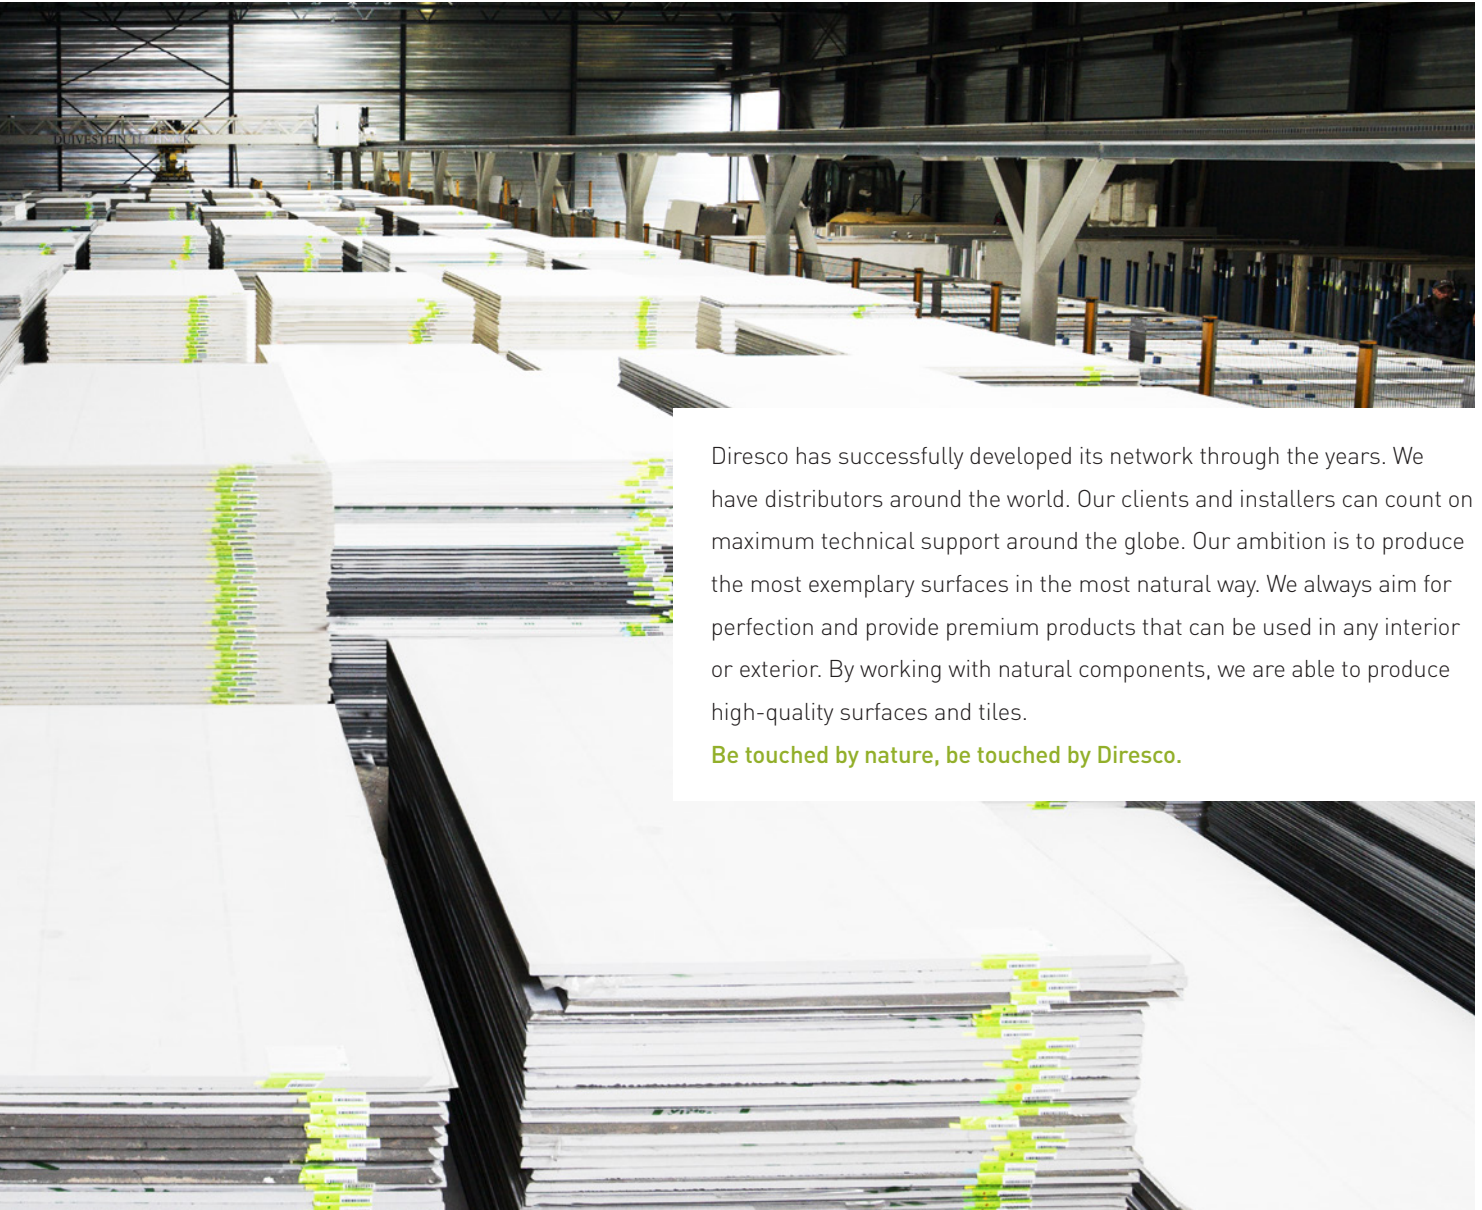

Suitable for indoor
and outdoor use

MINERAL SURFACES DESIGNED TO LAST

IN BELGIUM, WE EMBRACE LIFE. WE SEIZE THE DAY AND ENJOY EVERYTHING LIFE HAS TO OFFER. WE TAKE GREAT PRIDE IN OUR INGENUITY AND CRAFTSMANSHIP. IT'S NOT SURPRISING THAT BELGIAN DELICACIES SUCH AS CHOCOLATES, PRALINES AND TRADITIONALLY BREWED CRAFT BEERS HAVE CAPTURED THE HEARTS OF SO MANY AROUND THE WORLD.

BELGIUM IS ALSO HOME TO DIRESCO, A BELGIAN FAMILY COMPANY THAT BELIEVES WHOLEHEARTEDLY IN PURE QUALITY. FOUNDED BY THE SCHELFHOUT FAMILY IN 2003, DIRESCO IS THE ONLY PRODUCER OF NATURAL ENGINEERED STONE IN NORTHERN EUROPE. DIRESCO CONTINUES TO PRODUCE THE HIGHEST QUALITY MINERAL SURFACES IN THE WORLD. DIRESCO IS CAPABLE OF FULFILLING VIRTUALLY ANY DEMAND THANKS TO ITS FLEXIBLE PRODUCTION CAPACITY AND ITS WORLDWIDE LOGISTICS NETWORK.

Diresco has successfully developed its network through the years. We have distributors around the world. Our clients and installers can count on maximum technical support around the globe. Our ambition is to produce the most exemplary surfaces in the most natural way. We always aim for perfection and provide premium products that can be used in any interior or exterior. By working with natural components, we are able to produce high-quality surfaces and tiles.

Be touched by nature, be touched by Diresco.

UNIQUE BIO-UV TECHNOLOGY FOR SUSTAINABLE INDOOR AND OUTDOOR APPLICATIONS

- **BIO:** natural, biological resins
- **UV:** UV-stabilisers for optimal colour stability

OUR ENTERPRISING SPIRIT IS IN OUR DNA AND DRIVES US TO BE INCREDIBLY INVENTIVE. WHEN IT COMES TO THE DEVELOPMENT OF NEW PRODUCTS AND PRODUCT APPLICATIONS, WE ARE CONSEQUENTLY THE LEADER IN THE MARKETS IN WHICH WE OPERATE. WE ARE FOCUSED, HAVE AN EYE FOR DETAIL AND WORK WITH UNRIVALED DEDICATION ON ACHIEVING NATURAL PERFECTION. WE PLACE STRINGENT DEMANDS ON THE PURITY OF OUR MATERIALS AND PRODUCTS.

Our revolutionary BIO-UV technology was born from our quest for pure perfection. With the aid of plant-based and UV resistant resins, we have produced a completely new generation of ecological mineral composite surfaces that are much more resistant to sunlight. Leaving nothing to chance, we had the technical qualities of our BIO-UV technology tested extensively by world-class research institute Intertek.

*For exterior applications Diresco advises the use of **light and mid tone colours in velvet finishing** for optimal colour stability.*

INTERTEK CERTIFICATE

LET THE SUN SHINE!

UNIQUE BIO-UV TECHNOLOGY

The test results were outstanding in terms of sustainability, applicability and processing. Alongside our other standard product qualities, our BIO-UV technology guarantees good weather resistance. Nothing stands in the way of exterior use, which means our surfaces are a perfect fit for an outdoor kitchen or exterior façade.

Diresco BIO-UV surfaces are comprised of ~90% natural Mineral granulates and ~10% plant-based resins and colour pigments. In order to provide architects and designers greater creative freedom, our slab dimensions are 3.18m x 1.55m (125" x 61"). Our surfaces are available in thicknesses of **12mm, 20mm or 30mm**. They can be supplied in either a **poli, velvet or anticato finish**.

BU041 NATURE BEIGE

NATURE

This range is produced with an alternative raw material containing a **reduced silica level**.

A RANGE OF NEW NATURAL COLOURS NAMED “NATURE” IN LIGHT GREY AND BEIGE.

This characterful Nature range will also be available with subtle golden „Cloud” veins and stands for timeless design and pure class. With these warm earth and nature colours, Diresco flawlessly anticipates on the latest interior design trends in kitchens and bathrooms.

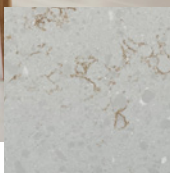

These Nature colours will be an important addition to the already extensive Diresco range and offer stylish added value in a variety of applications.

NATURE RANGE:

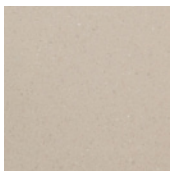

- Nature Silver
- Nature Silver Cloud (with veins)
- Nature Beige
- Nature Beige Cloud (with veins)

SUBLIME

FROM SPRING '24, DIRESCO WILL BE THE FIRST
MANUFACTURER IN EUROPE TO TAKE THE LEAD
WITH A REVOLUTIONARY PRODUCTION PROCESS.

FULL FOCUS ON INNOVATION

With the introduction of this new technology, Diresco will produce mineral surfaces under the name „Sublime“ using a so-called sublimation process, in which we will **combine the aesthetics of natural stone with the well-known high-quality properties of engineered stone.** This will be a major game-changer in the world of engineered stone and puts Diresco in the lead in terms of innovation.

TAJ MAHAL PROTOTYPE

TRAVERTIN PROTOTYPE

MARBLE PROTOTYPE

The Sublime range will allow Diresco to significantly expand its portfolio with new colours, unique designs and eye-catching patterns, taking into account market demand from the kitchen sector. In a 2nd phase, Diresco will be able to further distinguish its product range by combining this technology with **eye-catching full-body designs and veining patterns.**

The Sublime series will be available from the 2nd quarter 2024

NOBLESSE

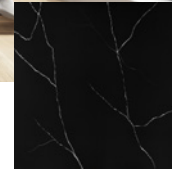

MARBLE HAS ALWAYS BEEN ONE OF THE MOST POPULAR AND WIDELY USED TYPES OF STONE. IT IS A LIMESTONE THAT IS FORMED UNDER HIGH TEMPERATURES. THE LITERAL TRANSLATION OF MARBLE IS 'GLISTENING STONE'. THE MATERIAL HAS A LUXURIOUS, ALMOST REGAL LOOK AND FEEL. MARBLE HOWEVER, IS EXTREMELY POROUS, MEANING WATER AND OTHER LIQUIDS CAN EASILY SEEP INTO THE SURFACE. THIS DISADVANTAGE ASSOCIATED WITH NATURAL MARBLE CAN RESULT IN STAINING. THE MATERIAL IS ALSO EXTREMELY PRONE TO SCRATCHES AND REQUIRES REGULAR MAINTENANCE.

NU133 NOBLESSE GOLD

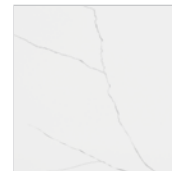

SUBTLE MARBLE DESIGN

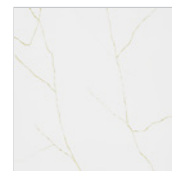

Together with designer Bram Bollen, we went on a quest to create 'the perfect marble-look surface'. An exceptionally refined and super-strong surface with all the correct product attributes, plus ease of maintenance and a divinely beautiful structure. By selecting a new colour base and using a new formulation, we were able to develop a range of marble which exceeds any natural version in look & feel. Sober and refined vein patterns distinguish our range, which we lovingly name Noblesse. Simply because we feel obliged to improve nature in a sustainable way. Using the finest minimalistic marble design, these surface excel in more distinctive interiors.

BU032 CAVA MOCCA

BU033 CAVA SNOW

TRANSPARENT GRANULATES

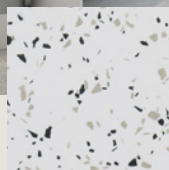

With four colours - Cloud, Mocca, Ice and Snow - the Cava line blends effortlessly with all styles and moods. The high-quality workmanship and sophisticated appearance will ensure a timeless, harmonious look. Introduce clean lines to a country-inspired kitchen, add the finishing touch to a sleek interior or an element of luxury to a pure, minimalist design... the possibilities are virtually limitless! Thanks to its versatility, Cava also adds value to any home, office or retail

environment, and can even be used as a floor or wall covering. But that is not all. This range also has our unique BIO-UV technology which makes it durable and more resistant to sunlight. Have you ever dreamt of having an outdoor kitchen where you can relax with an aperitif and catch the last rays of sunlight? The Cava, Mocca and Snow make it possible to take the inside outside, to savour a luxurious 'outdoor living lifestyle.

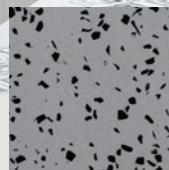

TERRAZZO^o

INSPIRED BY BRAM BOLLEN

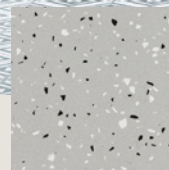

THE WORLD OF DESIGN IS NOW INCONCEIVABLE WITHOUT THE CREATIVE SPIRIT AND HAND OF DESIGNER BRAM BOLLEN. INSPIRED BY ARCHITECTURE AND INTERIOR DESIGN, HE DESIGNS THE MOST BEAUTIFUL OUTDOOR FURNITURE AND SURROUNDINGS. HE IS A MASTER OF SIMPLICITY AND HAS A KEEN EYE FOR DETAIL, MAKING HIS DESIGNS FRESH AND CONTEMPORARY.

YU003 TERRAZZO GREY

YU004 TERRAZZO CREA LIGHT

YU005 TERRAZZO CREA DARK

PLAN B WAS SET UP BY BRAM BOLLEN BACK IN 2006. A CREATIVE DESIGN STUDIO, WHERE RENOWNED DESIGN LABELS AND BRANDS ARE AT THE FOREFRONT.

PURE ELEGANCE

Together with Diresco, Bram Bollen has injected modernity into traditional Terrazzo. New colours, surprising contrasts and unique fragments are the basic ingredients of our Terrazzo range. A colour range that connects seamlessly with the natural designs of Diresco. A pure elegance that gives every interior or exterior a natural and timeless feel.

The refined simplicity and detailing of our Terrazzo range allows these designs to be applied in both minimalistic spaces and classically furnished interiors. Terrazzo is a reflection of our rich design past and contemporary character.

A NATURAL SOURCE OF INSPIRATION

We inspire and challenge each other. We spar, exchange ideas, and learn from each other. We strive to strengthen and improve each other. This is what drives us every day at Diresco. Together with architects and designers, we sit around the table, to develop beautiful products and carry out projects.

Visionaries such as Vittorio Simoni share their ideas with us and describe how they shape buildings, houses, interiors, exteriors, and furniture. We look to the future together and think about how we can make the world more beautiful and durable. The way we live is a direct influence on our existence and our wellbeing.

THE SITUATION CONTAINS THE SOLUTION

NATURAL LOOK, EVERLASTING LIFESPAN

We love what we do, and we believe what we make is beautiful. That is why we continually invest in developing new technologies and in making our production processes increasingly more sustainable.

We have mastered our trade and genuinely enjoy the magic with which we develop and produce our surfaces. We are inquisitive by nature and as a result we are always looking for ways to further refine our product. Pure and exceptionally refined formulations provide our surfaces with a natural look and feel and a guaranteed everlasting lifespan.

Inspired by the world around us, we provide architects and designers a surface with unlimited value.

INTERIOR DESIGN AND ARCHITECTURE ARE BOTH ART FORMS, AND DAILY LIFE CAN OFTEN BE THE SOURCE OF INSPIRATION. NOT ONLY DO DESIGNS NEED TO BE “BEAUTIFUL”, THEY NEED TO BE PRACTICAL, DURABLE, TIMELESS AND ADAPTABLE.

AU300 BEACH ICEBERG

**UNLIMITED
POSSIBILITIES**

Our surfaces can essentially be applied in any conceivable office or home situation. Both inside and outside. Think about the cladding on facades, walls, stairs, floor, (outdoor) kitchens, bathrooms, store interiors, restrooms, closets, counters, tables and/or terrace areas. The products which we make today contribute to a sustainable future. Everlasting but also one hundred percent reusable in new applications. Discover the unlimited possibilities of our engineered stone products.

FINISHES & COLOURS

OUR COLOUR RANGE IS AS EXTENSIVE AS THE RANGE OF USES FOR OUR SURFACES.

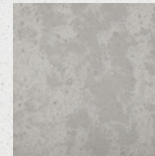

POLI A **gloss finish** tightly sealed what makes it very difficult for stains to penetrate. A radiant finish with an impeccable linear reflection.

VELVET The stylish **matte finish** ensures aesthetic value and provides exceptional density, depth of colour and ease of maintenance. The luxurious look and feel of our velvet finish evokes a relaxed and natural feel. This finish does not require any additional surface protection (stain stop/protector).

ANTICATO This finish stands out with a **textured surface** due to a special treatment. The robust look can be adapted easily for any environment. This specific finish makes for an impressive anti-slip surface, and opens up a multitude of decorative possibilities. This finish should be treated with a protector by a professional before initial use, but for regular maintenance, this finish has no special requirements.

For the maintenance of your engineered stone top, please refer to our maintenance brochure at www.diresco.be
